## Summary

A web developer currently enrolled in the University of Washington's Full Stack Web-developer bootcamp, possessing a diverse set of technical and collaboration skills. Proficient in HTML, CSS, JavaScript, Bootstrap, and React, capable of creating visually compelling and responsive websites. Additionally, adept in Node.js, OOP, Express, MongoDB, MySQL, Sequelize, and MERN stack apps. Experienced in directing and collaborating with teams on a multitude of projects.

## EDUCATION

- **FULL STACK CODING CERTIFICATE:** University of Washington, October 31st – May 1st | Team Collaboration, full-stack web development program focused on technical development skills in HTML5, CSS, JavaScript, JQuery, Bootstrap, Node.js, MySQL, Express, ReactJS, MERN stack, and OOP.
- **ASSOCIATE ARTS AND SCIENCES (AAS):** Whatcom Community College, June 2020 Graduated at 18 through running start program | 3.06 GPA | Excelled in classes that involve math and critical thinking
- **HIGH SCHOOL DIPLOMA:** Squalicum High School, June 2020

## Technical Skills

**Technical Languages:** HTML | CSS | React | Handlebars | JavaScript | Node | Express | MySQL | NoSQL | MongoDB | MERN stack | Python | C++

**Applications:** Office suite | MongoDB apps | NPM | VSCODE | GitHub | Chrome Dev Tools | Insomnia

## Projects

**PetFriends** | <https://github.com/ColtonTO/PetFriends> | <https://coltonto.github.io/PetFriends/> |

- Front-end project designed to be able to search for the pet of your dreams, currently only able to search for dog breeds.
  - Was the team leader in this project and collaborated with two other classmates.
  - This project used HTML, CSS, JavaScript, APIs, and a TypeScript wrapper for the API

**SQL Employee Tracker** | <https://github.com/ColtonTO/SQL-Employee-Tracker>

- Back-end project that uses content management systems to allow non-developers to easily access and view information about employees stored in an SQL database
- This project used a back-end to create an interactable database through your terminal, in which you can add employees, departments, jobs, and also view and update all those fields.

**Fitness Tracker** | [https://github.com/ColtonTO/Fitness\\_tracker/tree/main](https://github.com/ColtonTO/Fitness_tracker/tree/main)

- Full-stack app that utilizes authentication for users to create accounts and post workout information onto a blog-like website
- This was a collaborative project, and helped with a lot of the database creation, debugging, and helped with some front-end code as well. Designed all the webpages in this app.

## **Experience**

**Lowe's Receiver/Stocker, Bellingham WA:** Feb 2022-Present • Used safety management systems to ensure a safe work environment. Was a jack of all trades and performed well no matter what task.

**Area Manager Pioneer Foodservice, Bellingham WA:** March 2019-2021 • Team leader at McDonald's, excelled in a fast-paced environment and thrived under pressure. Trained newly hired employees to make sure they are ready to take on their new position in a week or less. Helped implement new safety procedures for cash management.
